

ATTACHMENT 2 – PROPOSED REVISED LANGUAGE FOR
THE VOUCHER INCENTIVE PROGRAM (VIP) GUIDELINES

VOUCHER INCENTIVE PROGRAM GUIDELINES

Voucher Incentive Program
REDEEM AND CLEAN!

CARL MOYER PROGRAM FOR
ON-ROAD HEAVY-DUTY VEHICLES

California Environmental Protection Agency

Air Resources Board

VOUCHER INCENTIVE PROGRAM GUIDELINES CARL MOYER MEMORIAL AIR QUALITY STANDARDS ATTAINMENT PROGRAM FOR ON-ROAD HEAVY-DUTY VEHICLES

These guidelines describe the minimum criteria and requirements for the Carl Moyer Memorial Air Quality Standards Attainment Program (CMP) on-road heavy-duty vehicles Voucher Incentive Program (VIP). The VIP provides a streamlined approach ~~for participants, air quality management districts, and air pollution control districts to participate into~~ reduce emissions by installing a Verified Diesel Emission Control Strategy (VDECS or “retrofit”) or by replacing ~~existing~~ old, high-polluting vehicles with newer, lower-emission vehicles. ~~The basis for the VIP is the current fleet modernization program that provides incentives to replace old high-polluting heavy-duty vehicles with newer, lower-emission replacement vehicles.~~ The VIP ~~source category~~ provides real emission benefits by retrofitting or retiring the high-polluting vehicle earlier than would have been expected through normal attrition or by regulation. Carl Moyer Program funds for voucher projects are used to offset part of the cost of the retrofit device or replacement vehicle.

California air pollution control/air quality management districts (districts) shall utilize these guidelines as a stand-alone document and need not refer to the current Carl Moyer Program guidelines in implementing this program. Districts must follow all VIP guidelines in order to offer vouchers as a funding option. Districts may not set more stringent requirements based upon local priorities. These guidelines provide implementation documents in the appendices section that must be used for funding voucher projects and may not be modified (unless otherwise noted).

1. Project Criteria

The project criteria listed below for VIP projects provides districts, applicants, retrofit installers, and truck dealerships with the minimum requirements for participating in the VIP.

2. Projects Eligible for Funding

The following heavy-duty vehicle VIP projects are eligible for funding:

New Replacement Vehicle Purchase: The purchase of a new 2007 model year or later vehicle with an engine certified to a Family Emissions Limit (n-FEL) or Standard (STD) level of 1.20 g/bhp-hr Oxides of Nitrogen (NOx) and 0.01 g/bhp-hr Particulate Matter (PM) or cleaner to replace the existing vehicle that is to be scrapped.

Used Replacement Vehicle Purchase: The purchase of a used 2007 model year or later vehicle with an engine certified to a n-FEL or STD level of 1.20 g/bhp-hr NOx and 0.01 g/bhp-hr PM or cleaner to replace the existing vehicle that is to be scrapped.

Retrofit Purchase and Installation: The purchase and installation of a qualifying retrofit device that is verified by ARB for the specific engine family in the existing vehicle.

3. Project Funding Amounts

The maximum total project funding amounts associated with reducing the eligible costs of a VIP project are pre-determined and shown in ~~Table 1~~Appendix O.

Table 1: ~~Voucher Program Funding Amounts~~

Declared Gross/Combined Gross Vehicle Weight Range	In Operation by 12/31 of Calendar Year	Model Year of Old-vehicle Engine	Project Amount
Heavy-Heavy Duty Vehicle (greater than 60,000 pounds)*	2009	1990 and older	\$35,000
		1991-1993	\$30,000
	2010	1990 and older	\$25,000
		1991-1993	\$20,000

~~* Historical operation of 30,000 miles per year or consumed 4,700 gallons per year for two years is required to participate (gallons TBD)~~

4. Program Requirements

(a) General Program Criteria

- (1) ~~Small Fleet Size Limitations: Fleets that have one, two, or three vehicles that are 14,001 or greater Gross Vehicle Weight Rating (GVWR) are eligible to participate in the VIP (see definitions for an explanation on weight in Section 5). Fleets that have one, two, or three on-road heavy-duty diesel fueled vehicles with a gross vehicle weight rating (GVWR) greater than 14,000 pounds are eligible to participate in the VIP. Fleets that have more than three heavy-duty vehicles are not eligible to participate in the VIP.~~
- (2) The following vehicles are not eligible for funding:
 - a) Vehicles subject to the solid waste collection vehicle rule commencing with title 13, CCR, section 2021;
 - b) On-road diesel-fueled heavy-duty vehicles over 14,000 pounds owned or operated by a municipality that are subject to the fleet rule for public agencies and utilities commencing with title 13, CCR, section 2022;
 - c) Vehicles subject to the fleet rule for transit agencies commencing with title 13, CCR, section 2023;
 - d) Vehicles subject to the rule for mobile cargo handling equipment at ports and intermodal rail yards commencing with title 13, CCR, section 2479;

- e) Off-road vehicles subject to title 13, CCR, sections 2401, 2411, 2421, 2432, and 2449;
- f) Vehicles subject to the regulation for drayage trucks commencing with title 13, CCR, section 2027; and
- g) Trucks with a GVWR of 19,500 pounds or less.

~~The GVWR is only to be considered to determine the fleet size and not to determine if a specific vehicle meets all other VIP requirements.~~

- (3) Emission Reduction Technologies: Emission reduction technologies must be certified/verified by the ARB and must comply with durability and warranty requirements. For the purposes of the VIP, a technology granted a conditional certification/verification by ARB is considered certified/verified.
- (4) Vehicle Leasing is Not Allowed: If financing is necessary, the vehicle purchase must be financed with a conventional purchase loan.
- (5) Obtaining Financing: The participant may obtain public and/or private financing to assist in the purchase of the a retrofit or replacement vehicle, but cannot seek additional public funded grants.

~~(5) Drayage Truck Regulation: Vehicles that fall under the authority of ARB's Drayage Truck Regulation are not eligible to participate in the VIP.~~

~~(7)(6)~~ Emission reductions obtained through VIP projects must not be required by any federal, State or local regulation, memorandum of agreement/understanding with a regulatory agency, settlement agreement, mitigation requirement, or other legally binding document.

~~(8)(7)~~ No emission reductions generated by the VIP shall be used as marketable emission reduction credits, or to offset any emission reduction obligation of any person or entity.

~~(9)(8)~~ No project funded by the VIP shall be used for credit under any federal or State emission averaging banking and trading program.

~~(10)(9)~~ Engines operating under a regulatory compliance extension granted by the ARB, a local district, or the U.S. EPA are not eligible for funding.

~~(11)(10)~~ Projects funded by the VIP may not be used to generate a compliance extension or extra credit for determining regulatory compliance.

(b) Participant Requirements

- (1) General Participant Requirements: All participants must meet the following requirements to be eligible for funding:
 - a. Ownership Requirements: The participant must currently own and operate the ~~existing old~~-vehicle, documented through providing a copy of the current ~~existing old~~-vehicle title. ~~If the existing vehicle title is not available at the time of application, all of the following may be used as alternative ownership documentation until a duplicate title is received from DMV: 1) copy of current and valid vehicle registration, and 2) copy of DMV Vehicle Registration Inquiry Report, and 3) copy of DMV receipt for duplicate title request. A copy of the duplicate title must be received by the air district before payment is issued to the dealership or retrofit installer.~~
 - b. Prior Minimum Usage Requirement: The ~~existing old~~-vehicle must have ~~met the mileage or fuel usage requirements in Appendix~~ ~~Operated a minimum of 30,000 miles per year or consume 4,700 gallons of diesel fuel per year, in each of the previous twelve (12) month period for the previous twenty four (24) months.~~ ~~two years to be eligible to participate.~~ Participants must submit documentation verifying usage for the previous ~~twenty four (24) month~~ ~~two years~~ for the ~~existing old~~-vehicle. Examples of documentation ~~may can~~ include, ~~but are not limited to the following:~~ logbooks, fuel records, maintenance records, ~~and~~ tax records, ~~etc.~~
 - c. Operation in California: ~~The existing old vehicle(s) must have operated at least 75% of the time in California during each twelve (12) month period for the previous twenty four (24) months. Applicant certifies this on the application.~~
 - ~~e. The participant must certify on the application that the old vehicle operated at least 75% in California during the previous two (2) years.~~
 - d. Applying for Funding in a Participating Air District: Applicants may only apply to one participating air district at a time. ~~A list of participating air districts will be listed at~~ <http://www.arb.ca.gov/msprog/moyer/voucher/voucher.htm>
 - e. Application Package: To be approved for VIP funds, the applicant must meet guideline requirements, submit an application, and submit all of the documentation listed in the Application Package (Appendix A).

(2) Participant Requirements for Replacement Projects: All replacement project participants must meet the following requirements to be eligible for funding:

- a. Specified Participating Dealership: The participant must specify the participating dealership used for the purchase of the replacement vehicle. If the application is approved, the participant must purchase the replacement vehicle from the specified dealership. If the participant chooses to change dealerships, the participant must submit a new VIP application to the district.
- b. Voucher Redemption Deadline: The dealer and owner must agree on a date in which the replacement vehicle will be delivered. The voucher will be redeemable within 30 days of issuance or by the delivery date agreed upon by the dealer and owner, whichever is later.

The deadline to redeem a voucher issued during calendar year 2009 can be extended by the district if requested by the dealership as a result of a delay in delivery of the replacement vehicle or other reasonable cause, as determined by the district. If a delay in the delivery date results in delivery during 2010, then the district can grant an extension for delivery of the replacement truck without changing the voucher amount. The district can only extend the delivery date up to June 30, 2010. The truck must be delivered and operational by this date. For vouchers issued during calendar year 2010 and later, the voucher redemption and delivery deadline cannot be extended into the following calendar year because of surplus emission benefit requirements.

If the owner is unable to purchase the replacement vehicle after a voucher has been issued, the owner must notify the dealer and district immediately so that funds can be reallocated.

- c. Replacing two (2) existing vehicles with one (1) replacement vehicle: Owners may replace two existing old-vehicles with one replacement vehicle as long as all VIP requirements are met. The two existing old-vehicles must have cumulatively operated a minimum of 30,000 miles per year or 4,700 gallons of diesel fuel per year for the previous two (2) years met the mileage or fuel usage requirements in Appendix O. The funding levels do not double for the replacement vehicle as shown in Table 4 If the two existing vehicles have different engine model years, then the newest engine model year shall be used to determine the funding amount. Participants who utilize this option must submit a complete application for each existing old-vehicle. The applicant should specify on each application that the applicant is choosing this option by checking the Two-for-One Option box.

d. The owner must agree to the following terms after being approved for a replacement voucher:

- i. If the existing vehicle qualifies for heavy heavy-duty funding levels, the replacement vehicle must be rRegistered the replacement vehicle in California with the Department of Motor Vehicles (DMV) with a declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 pounds (lbs.).
- ii. Maintain insurance as required by law.
- iii. Own and operate the replacement vehicle at least 75% of the time within California for a minimum of thirty six (36) months~~three years~~ from the date of purchase.
- iv. Notify the district if there is any change of ownership.
- v. Return annual usage surveys as requested by the district.
- vi. Do not make any modifications to the emission control system on the replacement vehicle engine.
- vii. Be available for a follow up inspection, if requested by the district or the California Air Resources Board (ARB).
- viii. Allow ARB to verify the replacement vehicle registration with the California Department of Motor Vehicles (DMV) after awarded a voucher.

(3) Participant Requirements for Retrofit Projects: All retrofit project participants must meet the following requirements to be eligible for funding:

- a. Specified Participating Installer: The participant must specify the participating retrofit installer used for the purchase and installation of the retrofit device. If the participant chooses to change installers, the participant must submit a new VIP application to the district.
- b. Voucher Redemption Deadline: The installer and owner must agree on a date in which the retrofit will be installed. The voucher will be redeemable within 30 days of issuance or by the installation date agreed upon by the installer and owner, whichever is later.

For retrofit vouchers issued during calendar year 2010, the voucher redemption and installation deadline cannot be extended beyond

December 31, 2010 because of surplus emission benefit requirements.

If the owner is unable to have the retrofit installed after a voucher has been issued, the owner must notify the installer and district immediately so that funds can be reallocated.

(c) Existing ~~VOld~~-vehicle Requirements: Replacement Projects

For replacement projects, aAll existing ~~-old~~-vehicles must meet the following conditions before a VIP application will be approved and awarded a voucher.

- (1) Eligible Model Years for the ~~ExistingOld~~ Engine: The model year of the ~~existingold~~ engine must be 20024993 or older. Verification of the model year must be submitted in the application package. Verification can include a picture of the model year on the engine plate or written documentation from the manufacturer or participating dealer that matches the engine serial number to a particular model year.
- (2) Diesel-fueled Vehicles: The ~~existing old~~-vehicle must currently operate on diesel fuel.
- (3) Weight Class: The existing vehicle must meet the criteria for either a medium heavy-duty vehicle or a heavy heavy-duty vehicle, as defined below.
 - i. To qualify for medium heavy-duty (MHD) funding levels, eligible vehicles must have a manufacturer Gross Vehicle Weight Rating (GVWR) of 19,501 or greater. GVWR may be documented with a photo of the engine tag or a copy of the manufacturer build sheet.
 - ii. To qualify for heavy heavy-duty (HHD) funding levels, eEligible vehicles must have been registered by DMV with declared Combined Gross Vehicle Weight (CGW) range or declared Gross Vehicle Weight (GVW) range greater than 60,000 pounds for the previous 24 months. DMV weight codes corresponding to greater than 60,000 pounds are K, L, M, and N. If 24 months of CGW or GVW documentation is not available, then the vehicle must meet all of the following conditions to be eligible for HHD funding levels:
 1. The horsepower of the existing engine must be greater than 250 horsepower, and
 2. Vehicle must have a manufacturer GVWR greater than 33,000 pounds. Declared CGW or GVW may not be used to satisfy this criteria, and

3. Current and valid vehicle registration must identify declared CGW greater than 60,000 pounds, and
4. Manufacturer verification of GVWR and horsepower must be provided with the application.
- iii. Verification of the weight rating must be identified on the vehicle registration for the previous 24 months.

Verification of the declared CGW or GVW must be identified on the vehicle registration for the previous two years. DMV weight codes for greater than 60,000 pounds are K, L, M, and N.

- i. The old vehicle must have been registered with DMV with declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 lbs. Verification of the declared Gross/Combined Gross Vehicle Weight Range must be identified on the vehicle registration for the previous two years. Any changes that resulted in a declared Gross/Combined Gross Vehicle Weight Range less than 60,001 lbs. during the previous two (2) years disqualify the vehicle from participating in the VIP.

If two years of CGW or GVW documentation is not available, then the vehicle must meet all of the following conditions to be eligible:

Vehicle must have a manufacturer GVWR greater than 33,000 pounds. CGW may not be used to satisfy this criteria, and

Current and valid vehicle registration must identify CGW greater than 60,000 pounds, and

The horsepower of the old engine must be greater than 250 horsepower.

Current and valid vehicle registration and manufacturer verification of GVWR and horsepower must be provided with the application.

- (4) Vehicle Title: A copy of the existing old-vehicle title must be submitted with the application package. The owner must be listed on the title as the current sole owner of the vehicle, and must have and owned the vehicle during the previous twenty four (24) monthstwo years. If the existing vehicle title is not available at the time of application, all of the following may be used as alternative ownership documentation until a duplicate title is received from DMV: 1) copy of current and valid vehicle registration, and 2) copy of DMV Vehicle Registration Inquiry Report, and 3) copy of DMV receipt for duplicate title request. If the existing old-vehicle title or alternative ownership documentation shows an active lien-holder or salvage vehicle, then the vehicle does not qualify to participate in the VIP. A copy of the duplicate title must be received by the air district before payment is issued to the dealership.

- (5) California Registration: The existing old-vehicle must have current California registration and have been registered in California for the previous twenty four (24) monthstwo years. Copies of the DMV registration and proof of insurance for the existing old-vehicle for the

previous twenty four (24) monthstwo-years must be submitted with the application package. The existingold vehicle must be based in California. Verification can be made by looking at California registration. Applicants can provide proof of California registration by providing copies of California registration or California IRP (International Registration Plan) documents. Out-of-state registration or out-of-state IRP do not qualify for the VIP.

- Partial-Year California Registration Exception: If the existing old- vehicle operates seasonally, then the existing old- vehicle may be eligible to participate in the voucher incentive program if it has been registered in California for at least three (3) months per twelve (12) month periodyear for the previous twenty four (24) monthstwo-(2) years. DMV registration documentation for each month the vehicle was registered must be included in the application package. Trucks that are registered seasonally must meet the minimum annual usage requirements in Appendix O in order to qualify.

(6) Operational Condition Verification: The existing old- vehicle must be in operational condition to qualify for funding. Operating condition must be determined through an inspection by a participating dealership prior to submitting the application or by air district staff upon request. An operational vehicle must be able to start, move in all directions, and have all operational parts.

(7) Engine Verification: If the existing old- vehicle engine tag is missing, then verification of the engine information can be done with the engine serial number. The participant will be required to provide verification of the engine make, model, model year, engine serial number, and horsepower from the manufacturer. Verification can include a letter or a printout from an engine manufacturer or participating dealer.

(8) Glider Kits: Existing glider kit vehicles are eligible to participate in the voucher program. The replacement vehicle has to be a complete Original Equipment Manufacturer (OEM) vehicle; i.e., the replacement vehicle cannot be a glider kit. Glider kits are replacement chassis and cab for on-road heavy-duty vehicles. Glider kits are identified with a vehicle identification number (VIN) starting with the letters "GL". In situations where the model years of the glider kit vehicle's chassis and engine differ, approval determination shall be made using the model year of the engine.

(9) Existing Old-Vvehicle Body Components: The body of the existing old- vehicle does not play a part in the participation in the program. Program funds can only be used to purchase the new vehicle, not external body components or parts used for a particular vocation (i.e. dump body). Also,

when destroying the existing old-vehicle, body components do not need to be destroyed.

- (10) Operation of Existing Old-vehicle After Approved for a Voucher: If the existing old-vehicle is in an accident or has an engine failure AFTER receiving approval for a voucher from the air district but prior to replacement, then the existing old-vehicle will still be eligible for receiving funds from the program as long as all other VIP requirements have been met.
- (11) Delivering the Existing Old-Vehicle to the Dealer Prior to Taking Ownership of the Replacement Vehicle: The participant must deliver the existing old-vehicle in similar condition as it was in the pre-inspection. The district or dealer can reject the condition of the existing old-vehicle if it is deemed un-roadworthy or if parts were stripped from the existing old-vehicle. Reimbursement of the voucher will be withheld until the dealer or district approve of the condition of the existing old-vehicle.

(d) Existing Vehicle Requirements: Retrofit Projects

For retrofit projects, all existing vehicles must meet the following conditions before a VIP application will be approved and awarded a voucher.

- (1) Eligible Engine Model Years: The model year of the engine must be 2004-2006. Verification of the model year must be submitted in the application package. Verification can include a picture of the model year on the engine plate or written documentation from the manufacturer or participating dealer that matches the engine serial number to a particular model year.
- (2) Vehicles with an emissions control system that included a diesel particulate filter by the engine manufacturer are not eligible for funding.
- (3) Diesel-fueled Vehicles: The vehicle must operate on diesel fuel.
- (4) Weight Class: The vehicle must meet the criteria for either a medium heavy-duty vehicle or a heavy heavy-duty vehicle, as defined below.
 - i. To qualify for medium heavy-duty (MHD) funding levels, eligible vehicles must have a manufacturer Gross Vehicle Weight Rating (GVWR) of 19,501 or greater for the previous 24 months.
 - ii. To qualify for heavy heavy-duty (HHD) funding levels, eligible vehicles must have been registered by DMV with declared Combined Gross Vehicle Weight (CGW) range or declared Gross Vehicle Weight (GVW) range greater than 60,000 pounds for the previous 24 months. DMV weight codes corresponding to greater than 60,000 pounds are K, L, M, and N. If 24 months of

CGW or GVW documentation is not available, then the vehicle must meet all of the following conditions to be eligible for HHD funding levels:

1. The horsepower of the engine must be greater than 250 horsepower, and
 2. Vehicle must have a manufacturer GVWR greater than 33,000 pounds. Declared CGW or GVW may not be used to satisfy this criteria, and
 3. Current and valid vehicle registration must identify declared CGW greater than 60,000 pounds, and
 4. Manufacturer verification of GVWR and horsepower must be provided with the application.
- iii. Verification of the weight rating must be identified on the vehicle registration for the previous 24 months.
- (5) Vehicle Title: A copy of the existing vehicle title must be submitted with the application package. The owner must be listed on the title as the owner of the vehicle and must have owned the vehicle during the previous twenty four (24) months. Retrofit project vehicles may, or may not, have an active lien-holder. If the vehicle title is not available at the time of application, all of the following may be used as alternative ownership documentation until a duplicate title is received from DMV: 1) copy of current and valid vehicle registration, and 2) copy of DMV Vehicle Registration Inquiry Report, and 3) copy of DMV receipt for duplicate title request. A copy of the duplicate title must be received by the air district before payment is issued to the dealership.
- (6) California Registration: The existing vehicle must have current California registration and have been registered in California for the previous twenty four (24) months. Copies of the DMV registration and proof of insurance for the previous twenty four (24) months must be submitted with the application package. The vehicle must be based in California. Applicants can provide proof of California registration by providing copies of California registration or California IRP (International Registration Plan) documents. Out-of-state registration or out-of-state IRP do not qualify for the VIP.
- Partial-Year California Registration Exception: If the existing vehicle operates seasonally, then it may be eligible to participate in the voucher incentive program if it has been registered in California for at least three (3) months per twelve (12) month period for the previous twenty four (24) months. DMV registration documentation for each month the vehicle was registered must be included in the application package. Trucks that are registered seasonally must meet the

minimum annual usage requirements selected in Appendix O in order to qualify.

- (7) Operational Condition Verification: The vehicle must be in operational condition to qualify for funding. Operating condition must be determined through an inspection by a participating retrofit installer prior to submitting the application or by air district staff upon request.
- (8) Engine Verification: If the existing vehicle engine tag is missing, then verification of the engine information can be done with the engine serial number. The participant will be required to provide verification of the engine make, model, model year, engine serial number, and horsepower from the manufacturer. Verification can include a letter or a printout from an engine manufacturer or participating dealer.

(e) Replacement Vehicle Requirements (Replacement Projects Only)

For replacement projects, a All replacement vehicles must meet the following requirements before funding is awarded to the participant:

- (1) Purchased from a Participating Dealership: The replacement vehicle must be purchased from a district-approved participating dealership.
- (2) Title: The replacement vehicle must have a clean title prior to purchase. The replacement vehicle must not have been in an accident, repaired, and became available for resale.
- (3) California Registration: The replacement vehicle must be registered in California or in the California International Registration Plan (IRP) with DMV. If the vehicle is not registered in California or the California International Registration Plan (IRP), the voucher will be invalid.
- (4) Model Year: The replacement vehicle must be 2007 model year or newer.
- (5) New or Used: The replacement vehicle can be new or used. Used vehicles must have less than 200,000 miles of operation.
- (6) Engine Emission Standards: The replacement vehicle must have an engine certified to an emissions standard or an ~~an~~ FEL level of 1.20 g/bhp-hr of Oxides of Nitrogen (NOx) and 0.01 g/bhp-hr of Particulate Matter (PM) or cleaner ~~emission standard~~. An ARB Executive Order certifying the engine meets this requirement must be included with the application package.
- (7) Weight Class: If the existing vehicle qualified for funding as a heavy heavy-duty vehicle, then t The replacement vehicle must be registered

bywith DMV with a declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 lbs. If the existing vehicle qualified for funding as a medium heavy-duty vehicle, then the replacement vehicle must have a manufacturer GVWR between 19,501 through 33,000 pounds, and must be within 20% of the existing vehicle GVWR.

- (8) Warranty Requirements: All replacement vehicles must have a minimum of a one-year / 100,000-mile major component engine warranty. The warranty must cover parts and labor. It is recommended that the highest-grade warranty be purchased in order to avoid expensive repairs in the future. No Carl Moyer Program funds will be issued for maintenance or repairs related to the operation of the vehicle. The participant takes sole responsibility for ensuring that the vehicle is in operational condition.
- (9) Engine and Emission Control Modifications: Emission controls on the replacement vehicle engine cannot be modified in any manner. Unauthorized modification to engine performance (including changes in horsepower), emission characteristics, engine emission components (not including repairs with like-original equipment manufacturers replacement parts), or any other modifications to the engine's emission control function is not allowed.

(f) Retrofit Device Requirements (Retrofit Projects Only)

- (1) Only ARB-verified retrofits are eligible for funding.
- (2) Retrofit projects must use the highest level technically feasible technology verified for the engine being retrofitted. The retrofit device that achieves the highest level of PM reductions (Level 3: 85 percent reduction) and the highest level of NOx reductions is the highest level retrofit.
- (3) More information on retrofits, including a list of currently verified retrofits, is available at <http://www.arb.ca.gov/diesel/verdev/verdev.htm>. A searchable database of verified retrofits is available at <http://arb.ca.gov/diesel/verdev/vdb/vdb.php>.

(ge) Air District Requirements

Air districts that decide to implement the Voucher Incentive Program must follow the VIP guidelines. Districts must implement the program under the following requirements:

- (1) The Voucher Incentive Program guidelines and attachments provide all requirements for the program, therefore districts/dealers/grantees are not required to refer back to the 2008 Carl Moyer Program Guidelines for Moyer funded VIP projects.

- (2) Each district must have a resolution of the district Governing Board that commits the district to comply with all VIP requirements. If a district has been given prior authority to adopt a program like the VIP, the district must have the ability to comply with all VIP requirements.
- (3) Districts may not put additional limitations on project criteria or make changes to the VIP guidelines.
- (4) A district may request Carl Moyer Program funds if the district chooses to use those funds to implement the VIP as these funds become available. In order for a district to be approved for a funding request to implement the VIP, the district must provide verification of board approval to implement the VIP, a copy of at least one active dealer agreement, and a copy of at least one active dismantler agreement (as mentioned in (4)(e)(9)).
- (5) Districts must reject all VIP applications if funds are not currently available. Districts cannot create a list of VIP projects to receive funding in a future date.

~~(6) Districts must submit an addendum to their current CMP Policies and Procedures using the District VIP Policies and Procedures template (Appendix B) within two (2) months after they begin implementation of the VIP.~~

- (6) Districts must create an addendum to their current CMP Policies and Procedures using the District VIP Policies and Procedures (Appendix B) within two (2) months after they begin implantation of the VIP. Districts are not required no longer have to submit this addendum to ARB but it must be available upon request.

- (7) Districts must use the program documents provided in the appendices. The documents may only be modified to include district logos and district contact information. The documents will be provided electronically to the participating air districts.

- (8) Districts must work to contract with vehicle dealerships or retrofit installers located in their air ~~basin~~ district before contracting with dealerships or retrofit installers located outside of their air ~~basin~~ district. Districts that do not have dealerships or retrofit installers within their air ~~basin~~ district can proceed directly to contracting with dealerships or retrofit installers located outside of their air basin. Districts can contract with dismantlers located within or outside of their air district basin.

- (9) Districts must contract with vehicle dealerships, retrofit installers, and dismantler yards. Dealership and dismantler yard agreements must contain the language provided in Appendix C, C1, and D, respectively. If a dealership or retrofit installer has multiple locations, then the district

either needs to have one agreement for each location or list each location in one agreement. The process for selection of dealerships, retrofit installers, and dismantler yards must be specified by the district in the District VIP Policies and Procedures.

- (10) Districts must ensure participating dealerships, retrofit installers, and dismantlers meet all VIP requirements. Districts must receive request all requested documents from the any dealerships, retrofit installer, or dismantlers prior to signing an agreement to become a participating dealership or dismantler. Districts must maintain records verifying their participating dealerships, retrofit installers, and dismantlers meet the VIP requirements.
- (11) Districts must provide participating dealership, retrofit installer, and dismantler contact information to ARB within ten business days of entering into agreement ~~with a dealership or dismantler.~~
- (12) Districts must ensure at least one representative from each participating dealership or retrofit installer is trained on the terms, conditions and requirements of the Program. Districts must describe how this will be accomplished in the District VIP Policies and Procedures.
- (13) Districts must work in coordination with ARB in outreach efforts to increase participation of vehicle owners, dealerships, retrofit installers, and dismantler yards. Districts must specify outreach efforts in the District VIP Policies Procedures.
- (14) Districts must provide all applicants, ~~and~~ dealerships, and retrofit installers with application packages, inspection forms, and any other applicable VIP materials.
- (15) Districts cannot ~~put restrictions on~~ where participating dealers and retrofit installers can send completed applications.
- (16) Districts must review and approve applications on a first-come, first-served basis, based on the date of receipt of the application by the district.
- (17) Districts must approve or reject applications within five (5) business days of receipt.
- (18) Districts do not have to request records or other information to verify that a truck does not operate as a drayage truck. However, the district must reject a project if usage verification demonstrates drayage truck operation. Drayage truck is defined in Section (5).

- (19) Districts must review an application package and approve a project once all program requirements have been met. To facilitate the review of the application package, the district must confirm that all requirements on the District Review Checklist: Initial Review have been met (Appendix E). ~~Some fields on the application form do not need to be completed in order to approve the application.~~ The following application form fields are mandatory and must be filled in completely before the application may be approved:

Applicant Information: <ul style="list-style-type: none"> • Owner Name • Mailing Address (including City, State, Zip) • Physical Address (if different from mailing) • Owner Phone 	Third Party Information: <ul style="list-style-type: none"> • Third-Party Name • Mailing address (including City, State, Zip) • Physical Address (if different from mailing) • Phone • Third Party Signature & Date <p>Only required if a paid party other than the dealership completes the application</p>
<p><u>Existing Old Vehicle and Engine Information:</u></p> <ul style="list-style-type: none"> • Vehicle Make • Vehicle Model • Vehicle Model Year • Vehicle Identification Number (VIN) • License Plate Number • Odometer Reading • Vehicle Operational • GVWR • Engine Make • Engine Model • Engine Model Year • Serial Number • Engine Family Number • Engine operational • Fuel used 	<p>Replacement Vehicle and Engine Information: <u>(Replacement Projects Only)</u></p> <ul style="list-style-type: none"> • Vehicle Make • Vehicle Model • Vehicle Model Year • Odometer Reading • GVWR • Engine Make • Engine Model • Engine Model Year • Engine Family Number • Engine operational • Fuel used • CARB Executive Order Number
<p>Dealership/<u>Retrofit Installer</u> Information: All <u>fields/forms</u> must be filled out or a business card must be attached</p>	<p><u>Retrofit Device Information:</u> <u>(Retrofit Projects Only)</u></p> <ul style="list-style-type: none"> • <u>Retrofit Device Make</u> • <u>Retrofit Device Model</u> • <u>Retrofit Device ARB Executive Order #</u> • <u>ARB-verified PM reduction %</u> • <u>ARB-verified NOx reduction %</u> • <u>Retrofit device cost</u> • <u>Cost of retrofit device with installation</u>
<p>Inspection Forms: all applicable forms must be filled in based on the information required above for the old <u>existing</u> and replacement vehicles.</p>	<p>Applicant Recitals <u>Owner must sign and date application</u></p>

- (20) Districts must enter the Vehicle Identification Number (VIN) into the CARL database as part of the initial review of the application to ensure that the existing~~old~~ vehicle has not already been applied for funding in the VIP. If the VIN has already been entered into the CARL database, then the district must reject the application. ~~If the CARL database shows that the~~

~~VIN has been entered by another district, the application should be rejected immediately.~~

- (21) Dismantle inspections must be conducted by district staff. For all other inspections listed below, Districts have the option of conducting inspections or having the dealership conduct the inspections. If the district decides to conduct the inspections, the inspections must be scheduled and completed within the following timeframes:
- Pre-inspection of the existing old-vehicle must be completed within five (5) business days of the receipt of the application or request by the applicant or dealership.
 - Post-inspection of the replacement vehicle must be completed within three (3) business days of being notified by the dealership.
 - Pre-dismantle inspection of the existing old-vehicle must be completed within three (3) business days of being notified by the dealership. The pre-dismantle inspection is to verify the existing old-vehicle is in similar operating condition as in the pre-inspection. If the existing old-vehicle has been stripped of major parts or accessories, the district may withhold payment until the existing old-vehicle is restored to its previous state.
- (22) For approved projects, the district must provide an Approved Voucher Package to the dealership or retrofit installer, as applicable. An approved voucher package includes the following documents:
- Voucher (Appendix F)
 - Receipt of Voucher (Appendix G)
 - Dealer Reimbursement Invoice (for immediate signature and return to the district – Appendix H)
 - Post-inspection (replacement vehicle) and Pre-dismantle (existing old-vehicle) Inspection Forms (Appendix I)
 - Dealer Reimbursement Package Checklist (Appendix J)
- (23) If a submitted application is incomplete, illegible, or any documentation is missing or unclear, the district must reject the application immediately and return it to the applicant.
- (24) Rejected projects: Districts must mail or e-mail an application rejection letter and the application package to the applicant if their application has been rejected. This letter must be issued by the end of the five-day (5) review period. The district must state the reason(s) for the rejection on the rejection letter. If an application is rejected because the VIN is already in the CARL database, then the district should note this is the reason for rejection on the rejection letter and keep it in the project folder. The district must also notify the dealer or installer by mailing or e-mailing ~~the dealer~~ a

copy of the rejection letter. A template of the rejection letter is in Appendix K.

- (25) Payment Goal: A goal of the program is to ensure payment ~~to the dealership~~ can occur when the existing old-vehicle is turned into the dealership and the replacement vehicle is ready for purchase, or when the retrofit installation is complete. The district shall work towards achieving this goal and should notify the dealership or installer of any delays in issuing payment.
- (26) Project Payment Options: In order to achieve the payment goal, districts have two project payment options. The first option is to immediately begin the disbursement process for the approved voucher project after receiving a signed Dealer Reimbursement Invoice (Appendix H). Payment must not be distributed ~~to the dealership~~ until a district-approved Reimbursement Package has been submitted by the dealership or installer. The second option is to begin the disbursement process and issue payment within ten (10) business days of receipt of a completed reimbursement package. Districts must include in the District VIP Policies and Procedures the option that is implemented.
- (27) District Payment Checklist: Districts should use the District Payment Checklist to help review if a complete reimbursement package has been submitted and payment can be issued (Appendix L). Districts must keep a copy of the check with all project documents.
- (28) If the process of payment is delayed, the district must notify the dealership or installer by phone or e-mail at the earliest possible time of such delay.
- (29) If the reimbursement package is not complete, the district will mail or e-mail a reimbursement package rejection letter explaining the discrepancy to the dealership or installer (appendix M) and keep a copy of this letter.
- (30) Districts must enter all project data information into the CARL database within five (5) business days of approving an application for a voucher. Payment information should be submitted within five (5) business days after payment is issued.
- (31) Districts must conduct the dismantle inspection of the existing old-vehicle at the dismantler within 60 days of being notified the existing old-vehicle has been delivered to the dismantler yard. Inspection forms are in Appendix I. The dismantle inspection should include verification of ~~the old~~ engine destruction, vehicle frame rails are completely severed, and verification the dismantler yard has filed a Notice of Acquisition/Report of Vehicle To Be Dismantled (REG 42) with DMV. Verification can include a

copy of the form filed with DMV. Districts must also receive official verification from the dismantler that the REG 42 form has been accepted by DMV. This verification may occur after the dismantle inspection.

~~(30) If the dismantler does not have verification that the notice has been filed with DMV, the district should ensure that the notice be filed immediately. Districts must keep a copy of the verification the DMV notice has been properly filed.~~

(32) Districts must mail out annual usage survey reports to participants (Appendix N) for three (3) years after the replacement vehicle project has been funded. The district must also input data from the returned surveys into CARL. ARB will ensure all other participant voucher requirements are met.

(33) Records Retention: Districts must retain all records of approved voucher projects for a minimum of five (5) years from the date of issuing the voucher. For rejected projects, districts must maintain a copy of the application, the rejection letter, and method of notification for five (5) years from the date the application was received.

(34) Audit and Monitoring: Districts must allow ARB to monitor their voucher program; of which may include project audits of the district's implementation of the program.

(35) Audit of Participating Dealers and Retrofit Installers: Districts must meet the following audit requirements ~~of participating dealers~~:

- ~~• Districts must conduct audits on at least five (5) percent of dealer-inspected projects. Audits consist of verifying application information by visually inspecting the old vehicle and the replacement vehicle.~~

Districts are required to audit conduct audit inspections of 5 percent% of each type of inspection (pre, post, and pre-dismantle). Audits should be done randomly and occur throughout the implementation timeline of the district. Below is a table of audit requirements for the districts to follow.

<u>Type of Audit Inspection</u>	<u>Purpose(s)</u>	<u>Timing of Audit Inspection</u>
<u>Pre-inspection</u>	<ul style="list-style-type: none"> • <u>Verify existing truck is in operational condition</u> • <u>Verify existing truck application information</u> 	<u>After application is submitted to district but prior to approving the application.</u>
<u>Post-inspection</u>	<ul style="list-style-type: none"> • <u>Verify replacement truck meets emission standard:</u> <u>or</u> • <u>Verify that retrofit device as installed matches executive order verification</u> 	<u>After replacement truck is delivered <u>or retrofit installation</u>, and prior to payment being issued</u>

	<ul style="list-style-type: none"> • <u>Verify replacement truck application information</u> 	
<u>Pre-dismantle inspection (Replacement projects only)</u>	<ul style="list-style-type: none"> • <u>Verify existingold truck is in operational condition and has not been stripped of parts</u> • <u>Verify existingold truck application information</u> 	<u>After existingold truck is delivered to dealership and payment is issued. ExistingOld truck is at dealership location</u>

- Auditing dealers is not required for districts that conduct 100% of their own inspections.

(36) Meeting Environmental Justice Requirements: Districts with environmental justice requirements shall not apply these requirements to the VIP application review until after each year of implementation. The district must then review each project to determine if it helps to meet district EJ requirements. If those requirements have not been met other Carl Moyer funded projects will need to be used to fulfill the EJ requirement.

(hf) Dealership Requirements

- (1) Dealership participation is an important component of the VIP. Dealers are responsible for providing participants with assistance in the application process. This includes ensuring compliance with all program requirements. Participating vehicle dealers are required to do the following:
- a. Dealerships must contract with at least one district in order to be a participating dealer in the VIP. Language that will be included in this agreement can be found in Appendix C. The air district will provide the dealer with the exact contract language once the dealer has expressed interest in participating.
 - b. Dealerships may choose to contract with more than one district.
 - c. Dealership Qualifications: Dealership warrants that it meets the following minimum qualifications for participation in the Program, and will continue to meet these qualifications throughout its participation in the Program.
 - Dealership has had a valid California business license for a minimum of the last two years. Dealerships can prove meeting this requirement by providing documentation of being registered with DMV as a licensed vehicle dealership.
 - Dealership maintains a minimum of one (1) employee that has successfully completed the training by the District regarding the terms, conditions and requirements of the Program. If a

participating dealership maintains more than one location for truck sales, then each location must have at least one employee trained on the VIP.

- Dealership agrees to allow the District or ARB to inspect vehicles or audit program records covered under this Agreement during normal business hours.
- d. Provide accurate information about the VIP to applicants.
- e. Help the participants complete the VIP application package. It is important to make sure that all information is filled out correctly and that the participant understands the VIP requirements.
- f. Dealerships must show on the replacement vehicle invoice the voucher amount. The voucher does not reduce the purchase price of the truck, but is an incentive to the truck owner that will result in a lower price paid by the participant. The receipt of voucher funds does not lower the base price of the truck or does not reduce the tax basis of the truck.
- ~~b. Dealer must show that the voucher amount was deducted from the purchase price of the vehicle on the purchase invoice.~~
- g. Once the application package is complete, submit the application package to the district. Incomplete application packages will be rejected and returned to the applicant. The dealer will also be notified of the reasons for rejection (Appendix K).
- h. Application Submittal Recommendation: VIP recommends dealers submit applications to contracted districts that are closest to an applicant's physical address.
- i. Ensure the title for the replacement vehicle is registered to the participant in California. If the replacement vehicle is not registered in California, the voucher will be invalid and not be paid.
- j. Ensure the replacement vehicle is registered with a declared Gross/Combined Gross Vehicle Weight rating greater than 60,000 lbs.
- k. Ensure any used replacement vehicles have less than 200,000 miles of operation.
- l. Ensure the existing old-vehicle is delivered to the dealership prior to releasing the replacement vehicle.

- m. Ensure the existing old-vehicle is in ~~the~~ similar condition as found in the pre-inspection. The dealer should reject the condition of the existing old-vehicle if it is deemed un-roadworthy or if parts were stripped from the existing old-vehicle. Reimbursement of the voucher will be withheld until the dealer (or district) approves of the condition of the existing old-vehicle and is delivered to the dealership.
 - n. Ensure the existing old-vehicle and its original, signed title is sent to a participating dismantler yard for destruction within 30 business days of owner delivery to the dealership. Immediately notify the district of the location and date of delivery of the existing old-vehicle to the dismantler.
- (2) Application Package: To ensure that an application package is complete, the dealer must ensure that all the following items are complete and included in the participant's submission to the district. An applicant checklist is available for participants and dealerships to use (Appendix A). The following must be completed before a voucher will be issued:
- a. Submit a signed and complete application.
 - b. Submit all other applicant-required documentation as listed in these guidelines and on the application checklist
 - c. If required by the district, inspect and provide documentation showing that the existing old-vehicle is operational and roadworthy. The district may decide to conduct the inspections and will notify the dealership of this.
 - d. Submit digital photographs of the existing old-vehicle to the district. The district will specify the required format of digital photos as listed on the inspection form in appendix C. Before submitting photographs to the district, dealers must verify that photographs are clear with a minimum capture resolution of 640X480. Dealers can submit photos of more than one truck inspection on a disk or other media as long as the pictures are clearly labeled. All Vehicle Identification Numbers (VIN) and engine serial numbers (ESN) must be legible.
- (3) Dealer Reimbursement Package: Prior to receiving reimbursement, the dealer must submit a reimbursement package to the district. A checklist is available for the dealers (Appendix J). The following documents should be included in the reimbursement package:

- a. Dealer Reimbursement Invoice (appendix H) should be signed and returned to the district upon receipt
- b. Final dealership invoice signed by the applicant that shows the final purchase price less the voucher award
- c. Receipt of Voucher signed by the participant
- d. The original Voucher
- e. Copy of DMV registration paperwork showing vehicle registered to the participant in California and is registered with a declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 lbs.
- f. Copy of finance documentation (if applicable)
- g. Copy of replacement vehicle warranty
- h. Copy of title of existing old-vehicle signed and dated by applicant
- i. Inspection forms and pictures of the existing old-vehicle after it is turned in to the dealership as specified in appendix I.
- j. Inspection forms and pictures of the replacement vehicle as specified in appendix I.
- k. Location of the dismantler yard that the existing old-vehicle will be destroyed.
- l. Date the existing old-vehicle is delivered to or picked up by a participating dismantler.

(i) Retrofit Installer Requirements

(1) Retrofit installer participation is an important component of the VIP. Retrofit installers are responsible for providing participants with assistance in the application process. This includes ensuring compliance with all program requirements. Participating retrofit installers are required to do the following:

- a. Contract with at least one district in order to be a participating installer in the VIP. Language that will be included in this agreement can be found in Appendix C(1). The air district will provide the installer with the exact contract language once the installer has expressed interest in participating.

- b. Installers may choose to contract with more than one district.
- c. Installer Qualifications: Installer warrants that it meets the following minimum qualifications for participation in the Program, and will continue to meet these qualifications throughout its participation in the Program.
 - Installer has had a valid business license issued in California for a minimum of the last two years.
 - Installer maintains a minimum of one (1) employee that has successfully completed the training by the District regarding the terms, conditions and requirements of the Program. If a participating installer maintains more than one location, then each location must have at least one employee trained on the VIP.
 - Installer agrees to allow the District or ARB to inspect vehicles or audit program records covered under this Agreement during normal business hours.
- d. Provide accurate information about the VIP to applicants.
- e. Help the participants complete the VIP application package. It is important to make sure that all information is filled out correctly and that the participant understands the VIP requirements.
- f. Installers must show the voucher amount on the retrofit device invoice. The voucher does not reduce the purchase price of the retrofit, but is an incentive to the truck owner that will result in a lower price paid by the participant. The receipt of voucher funds does not lower the base price of the retrofit nor does it reduce the tax basis of the retrofit.
- g. Once the application package is complete, submit the application package to the district. Incomplete application packages will be rejected and returned to the applicant. The installer will also be notified of the reasons for rejection (Appendix K).
- h. Application Submittal Recommendation: Installers are requested to submit applications to contracted districts that are closest to an applicant's physical address.

±

(2) Application Package: To ensure that an application package is complete, the installer must ensure that all the following items are complete and included in the participant's submission to the district. An applicant checklist

is available (Appendix A). The following must be completed before a voucher will be issued:

- a. Submit a signed and complete application.
- b. Submit all other applicant-required documentation as listed in these guidelines and on the application checklist
- c. If required by the district, inspect and provide documentation showing that the existing vehicle is operational and roadworthy. The district may decide to conduct the inspections and will notify the installer of this.
- d. Submit digital photographs of the existing vehicle to the district. The district will specify the required format of digital photos as listed on the inspection form in appendix C. Before submitting photographs to the district, installers must verify that photographs are clear with a minimum capture resolution of 640X480. Installers can submit photos of more than one truck inspection on a disk or other media as long as the pictures are clearly labeled. All Vehicle Identification Numbers (VIN) and engine serial numbers (ESN) must be legible.

(3) Reimbursement Package: Prior to receiving reimbursement, the installer must submit a Reimbursement Package to the district. A checklist is available (Appendix J). The following documents should be included in the reimbursement package:

- a. Reimbursement Invoice (appendix H) should be signed and returned to the district upon receipt
- b. Final invoice signed by the applicant that shows the final purchase price less the voucher award
- c. Receipt of Voucher signed by the participant
- d. The original Voucher
- e. Copy of DMV registration paperwork showing vehicle registered to the participant in California and is registered with a declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 lbs.
- f. Copy of finance documentation (if applicable)
- g. Copy of retrofit warranty

- h. Copy of vehicle title signed and dated by applicant
- i. Inspection forms and pictures of the vehicle before it is retrofitted as specified in Appendix I.
- j. Inspection forms and pictures of the vehicle after retrofit is complete as specified in Appendix I.

(jg) Dismantler Requirements

For replacement projects, ARB requires that the existing old-vehicle is destroyed. Destruction of the existing old-vehicle chassis and engine permanently removes the old, high-emitting vehicles from operation. This requirement has been established to ensure that emission reductions are real. It prevents the existing old-vehicles from being moved into another locale to continue emitting high levels of pollutants. Districts will establish a list of participating dismantlers that existing old-vehicles can be delivered to or picked up for destruction.

Participating dismantlers are required to enter into an agreement with the district in order to participate in the Vehicle Incentive Program. Appendix D lists the terms that must be included in the district/dismantler agreement. The following are requirements for participating dismantlers.

- (1) Participating vehicle dismantlers are required to meet the following requirements in order to participate in the VIP and provide verification to the district:
 - Be licensed by the Department of Motor Vehicles (DMV) as a Dismantler;
 - Have a current, valid California Environmental Protection Agency (Cal/EPA) Hazardous Materials Generators Permit; and
 - Be in compliance with all local, state and federal laws and regulations.
 - Owner must have a minimum of one (1) active employee who received training by the District on the requirements of the Program. If a dismantler has more than one location, then the dismantler must have at least one (1) active employee trained by the District at each location that will be accepting VIP trucks.
 - Dismantler has had a valid California business license for a minimum of the last two years.
- (2) Funding is not available for the dismantler of any existing old-vehicle.
- (3) The dismantler must agree to do the following:

- Destroy the existing old-vehicle within 60 days of receipt. Destruction of the vehicle includes completely severing/cutting the frame rails in a manner where so that the frame is no longer capable of being used in a vehicle.
- The existing old-vehicle's engine must be destroyed and rendered useless. A minimum 3-inch diameter hole must be put into the engine block.
- The dismantler must notify the district that a vehicle is destroyed and ready for inspection.
- The destruction of the engine and vehicle must be documented by the district. The district must verify in-person the vehicle identification numbers and engine serial number.
- The dismantler must provide verification that the existing old vehicle is registered with DMV as non-repairable. Verification of filing the form with DMV must be provided to the district at the dismantle inspection. The dismantler must also provide verification to the district from DMV that the existing old vehicle has been registered with DMV as non-repairable (non-revivable) with a transaction code L10 (non-original Junk Non-Revivable) or C26 (Junk Non-Revivable Original). File a "Notice of Acquisition/Report of Vehicle To Be Dismantled" (REG-42) and provide a copy to the district at the dismantle inspection. If verification this notice has not been submitted to DMV, the dismantler must work with the district to ensure verification occurs and is submitted to the district.

5. Definitions

For the purposes of the VIP, definitions are as follows:

Body Components: Any components of a vehicle specific to the actual vocation of the vehicle. This does not include any components that are directly related to the propulsion of the vehicle, common component of a vehicle (i.e. steering wheel, seats, etc.), or related to the rigid structure of the tractor.

Declared Gross Vehicle Weight Range (GVW): The weight that equals the total unladen weight of the vehicle plus the heaviest load that will be transported on the vehicle. (Vehicles that haul a load, but do not pull another vehicle). Declared Gross Vehicle Weight Range as defined by DMV under the Commercial Vehicle Registration Act on DMV form REG. 4008.

Declared Combined Gross Vehicle Weight Range (CGW): The total unladen weight of the combination of vehicles plus the heaviest load that will be transported by the combination of vehicles. (Vehicles that pull another vehicle). Declared Combined Gross Vehicle Weight Range as defined by DMV under the Commercial Vehicle Registration Act on DMV form REG. 4008.

Dismantler: A place of business whose purpose is to destroy ~~old~~ heavy-duty vehicles and engines that also meet the requirements of section (g).

Drayage Truck: A in-use on-road vehicle with a gross vehicle weight rating (GVWR) of 33,000 pounds or greater operating on or transgressing through port or intermodal rail yard property for the purpose of loading, unloading or transporting cargo, such as containerized, bulk or break-bulk goods. More information on trucks that must comply with this rule can be found at:
<http://www.arb.ca.gov/msprog/onroad/porttruck/porttruck.htm>

Existing Vehicle: For replacement projects, the existing vehicle is the vehicle that will be turned in by the applicant for dismantling and destruction. For retrofit projects, the existing vehicle is the vehicle that will have a retrofit device installed.

Gross/Combined Gross Vehicle Weight Range: The range a commercial vehicle is declared when registering a commercial vehicle under the Commercial Vehicle Registration Act (CVRA) using DMV Form Reg. 4008.

Heavy-duty vehicle (HDV): Defined as a vehicle with a Gross Vehicle Weight Rating (GVWR) greater than 14,0~~01~~⁰⁴ lbs.

Heavy-Heavy Duty Trucks: For the purpose of the VIP, heavy-heavy duty vehicles are defined as having been registered with DMV with a declared Gross/Combined Gross Vehicle Weight Range of greater than 60,000 lbs. for the previous two years.

Participating Dealership: A dealership that has an agreement with an air district to participate in the VIP.

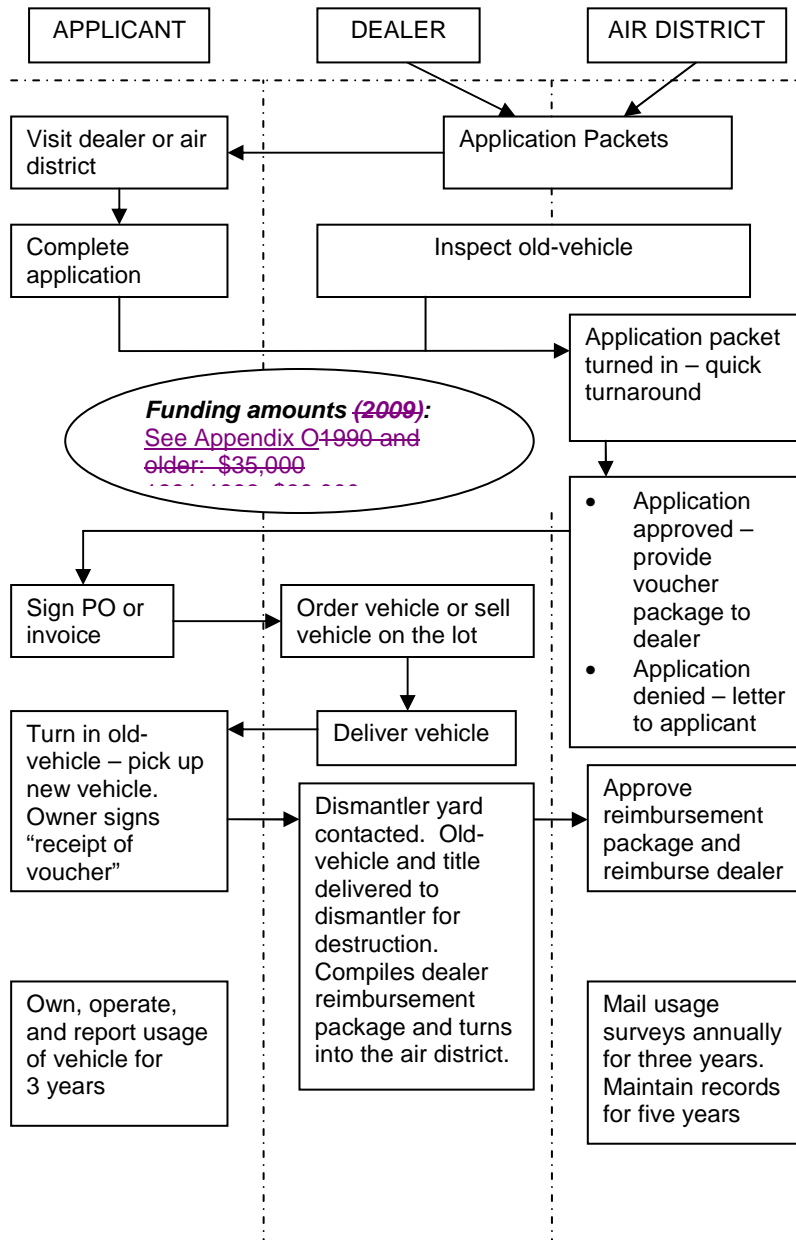

Participating Dismantler: A dismantler that has an agreement with an air district to participate in the VIP.

Small Fleets: ~~Fleets that own and operate three (3) or less heavy-duty diesel vehicles at any one time within the previous year.~~

: Has the same meaning as defined in the Statewide Truck & Bus Regulation at Title 13, CCR, Section 2025(d)(31)(G): “Small Fleet” means a fleet with three or fewer vehicles. When determining fleet size, all of the vehicles under common ownership and control must be counted.”

Verified Diesel Emission Control Strategy (VDECS): an emission control strategy (retrofit device) that has been verified pursuant to the “Verification Procedure, Warranty and In-Use Compliance Requirements for In-Use Strategies to Control Emissions from Diesel Engines” in Title 13, California Code of Regulations, commencing with section 2700.

Voucher Incentive Program Truck Replacement Flow Chart

Appendix A

VOUCHER INCENTIVE PROGRAM Application Package

- Please print clearly or type all requested information on this application.
- Submit all supporting documentation listed on the application checklist on pg. 2.
- Complete one application for each heavy-duty on-road vehicle ~~replacement~~.
- **If the submitted application is incomplete, illegible, or any documentation is missing or unclear, the application will be rejected immediately and returned to the applicant.**

Eligibility Criteria

To be eligible for funding in the Voucher Incentive Program, projects must meet the criteria described in the Voucher Incentive Program Guidelines. These criteria include, but are not limited to, the following:

- Fleet Size: Owner/ Applicant may not own more than three (3) heavy-duty diesel-fueled vehicles (with a Gross Vehicle Weight Rating (GVWR) greater than 14,000 lbs.). Owners of medium and large vehicle fleets are **NOT** eligible to participate.
- Existing~~Old~~ Engine Model Year: For replacement projects, ~~t~~The applicant must prove that the ~~existing old~~-vehicle is operating with an ~~engine that is model year 2002-1993~~ or older engine. For retrofit projects, the applicant must prove that the existing vehicle is equipped with a model year 2004 through 2006 engine.
- ~~Declared Gross/Combined Gross Vehicle Weight Range:~~ Applicant must prove that the existing old-vehicle meets the criteria for either a medium heavy-duty vehicle or a heavy heavy-duty vehicle as defined below:
 - To qualify for medium heavy-duty (MHD) funding levels, eligible vehicles must have a manufacturer Gross Vehicle Weight Rating (GVWR) of 19,501 or greater for the previous 24 months.
 - OR-**
 - To qualify for heavy heavy-duty (HHD) funding levels, eligible vehicles must have been registered by DMV with declared Combined Gross Vehicle Weight (CGW) range or declared Gross Vehicle Weight (GVW) range greater than 60,000 pounds for the previous 24 months. DMV weight codes corresponding to greater than 60,000 pounds are K, L, M, and N. If 24 months of CGW or GVW documentation is not available, then the vehicle must meet all of the following conditions to be eligible for HHD funding levels:
 - The horsepower of the existing engine must be greater than 250 horsepower, and
 - Vehicle must have a manufacturer GVWR greater than 33,000 pounds. Declared CGW or GVW may not be used to satisfy this criteria, and
 - Current and valid vehicle registration must identify declared CGW greater than 60,000 pounds, and

- Manufacturer verification of GVWR and horsepower must be provided with the application.
- Verification of the weight rating must be identified on the vehicle registration for the previous 24 months.

has been registered with a declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 lbs. for the previous twenty four (24) monthstwo years or prove the following:

Vehicle must have a manufacturer GVWR greater than 33,000 pounds. CGW may not be used to satisfy this criteria, and
Current and valid vehicle registration must identify CGW greater than 60,000 pounds, and
The horsepower of the old engine must be greater than 250 horsepower.

- Vehicle Title: Applicant must prove ownership of the existing old-vehicle for the previous twenty four (24) monthstwo years.
- Registration: Applicant must prove that the existing old-vehicle has been registered in California for the previous twenty four (24) monthstwo years.
- Insurance: Applicant must prove that the existing old-vehicle has been insured for the previous us twenty four (24) monthsus two years.
- Usage: Applicant must provide the previous twenty four (24) monthstwo years of vehicle usage documentation (fuel consumption or miles driven) in California. The existing old-vehicle must have met the selected mileage or fuel usage requirements in Appendix Ooperated a minimum of 30,000 miles per year or consume at least 4,700 gallons of diesel fuel per year for in each of the previous twenty four (24) monthstwo (2) years.
- Applying for Funds: Applicant may only apply for funds through the Voucher Incentive Program to one air district at a time. Applicant cannot apply for any other grant funds to replace or retrofit this vehicle.
- Two-for-One Vehicle Replacements: If an applicant is applying to replace two existing old-vehicles with one replacement vehicle, then two applications and supporting documentation must be submitted. Please specify this on the application by checking the Two-for-One Option.

By submitting this application, I certify under penalty of perjury that the information on this application is accurate and true:

- I am the owner of the existing old-vehicle(s);
- The company is a small fleet, owning no more than three heavy-duty diesel-fueled vehicles;
- The information provided in this application and all supporting documentation are true and correct and meet the minimum requirements of the Voucher Incentive Program;
- The existing old vehicle(s) must have operated at least 75% of the time in California during each twelve (12) month period for the previous twenty four (24) months. The old vehicle(s) operates 75% of the time in California;
- I have not and will not apply for additional grant funds from any other entities or programs for this vehicle;
- The purchase of this low-emission vehicle or retrofit device is NOT required by any local, state, and/or federal rule or regulation, including the Drayage Truck Regulation;
- For a period of three years from delivery date, I will not engage in any activities that are subject to the Drayage Truck Regulation, including accessing any regulated port or intermodal rail facility;
- If receiving funding according to heavy heavy-duty funding levels, I understand that I must register the replacement vehicle with the California Department of Motor Vehicles with a declared Gross/Combined Vehicle Weight range greater than 60,000 lbs;
- I understand that I must be in compliance and remain in compliance with all applicable federal, state, and local air quality rules and regulations;
- I understand that an incomplete or illegible application, or if any required documentation is missing, this application will be immediately rejected and returned to me;
- I understand that I can reapply for project funding if this application is rejected because it was incomplete, illegible, or missing required documentation;
- I understand as an applicant that incentive programs have limited funds and shall terminate upon depletion of program funding;
- I have the legal authority to apply for incentive funding for the entity described in this application; and
- I agree to the above statements by signing below.

Appendix B

VOUCHER INCENTIVE PROGRAM

District VIP Policies and Procedures

NOTE to DISTRICT:

The program elements listed do NOT constitute District's entire Policies and Procedures. This is an addendum to the District's already existing Policies and Procedures in order to explain how to administer the Voucher Incentive Program. The terms have been prepared to facilitate the Districts preparation of their Voucher Incentive Program Policies and Procedures. The District must ensure the intent of the VIP Guidelines are met and include the program elements listed below into their VIP District Policies and Procedures.

1. PROGRAM APPROVAL

How the District is obtaining approval to implement the Carl Moyer On-Road Heavy-Duty Vehicle Voucher Incentive Program.

2. DEALER SELECTION

The processes the District goes through to solicit and select dealers to go into agreement with.

RETROFIT INSTALLER SELECTION

The processes used by the District to solicit and select retrofit installers to enter into agreement with.

3. DISMANTLER SELECTION

The processes the District goes through to solicit and select dismantlers to go into agreement with.

4. PAYMENT PROCESS

The option in which the District chooses to reimburse and issue payment to the dealership or retrofit installer. There are two options:

- a.) To start the disbursement process as soon as they receive a **Dealer** Reimbursement Invoice, OR
- b.) To start the disbursement process and issue a check within ten (10) business days of receiving a completed **Dealer** Reimbursement Package.

5. DOCUMENTATION

The method in which the District chooses to document the activities and progress of the Voucher Incentive Program.

6. AUDITS

How the District chooses to audit and inspect the projects. There are two options:

a.) The District can choose to do all pre and post-inspections.

~~b.) The District can choose to have the dealer do all the inspections with the exception that the District must conduct audits of 5% of all pre and post-inspections.~~

b.) If the District chooses to have dealerships and retrofit installers do the inspections the District must audit 5% of each inspection (pre-inspection, post-inspection, and pre-dismantle inspection). The audits should be done randomly. The District must outline how they will conduct audits in the VIP Policies and Procedures.

7. DEALER & RETROFIT INSTALLER TRAINING

The District's method for working with ARB and setting up training for the participating dealers and retrofit installers on the Voucher Incentive Program. If the District chooses to have ~~a~~ dealers and retrofit installers do the inspections, the District must specify the media in which the inspection photographs will be submitted to the District. The District must work with ARB in coordinating training and materials.

8. DISMANTLER TRAINING

The District's method for working with ARB and setting up training for the participating dismantlers on the Voucher Incentive Program.

9. OUTREACH

The District's plan on outreach and their method of collaborating with ARB in the outreach goal for the Voucher Incentive Program.

Appendix C
VOUCHER INCENTIVE PROGRAM

Dealership Agreement Terms to be included in Master Agreement
Between the District and Dealer

NOTE to DISTRICT:

The terms listed do NOT constitute District's entire Agreement; standard District Agreement language (such as, confidentiality, termination, indemnification, insurance, etc.) must be included in conjunction with the items below. The terms have been prepared to facilitate the District's preparation of Agreement. The District must include the terms listed below and supersede any additional terms included by the District.

1. The District has not reviewed the Dealership's operations or reached any conclusion on the quality of the Dealership's operations. The District is permitting the Dealership to enter into this Agreement solely because Dealership has represented to the District that it is aware of the California Air Resources Board Voucher Incentive Program Guidelines (Guidelines) goals, and agrees to abide by the Program requirements and Guidelines.
2. The District and Dealership agree that if the California Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the Program, this Agreement shall be of no further force and effect. In this event the State shall have no liability to pay any funds whatsoever to the District and Dealership or to furnish any other considerations under this Agreement.
3. Payment: The District will not pay or otherwise directly reimburse or compensate in any way the Dealership for its services rendered in keeping with this Agreement, but the benefit received by Dealership under this Agreement is the opportunity to participate in the Program, which includes the corresponding opportunity for the Dealership to profit from the sale of vehicles to Program Participants.
4. ~~Reduction in Vehicle Purchase Price: The Dealership shall ensure that the vehicle purchase price is reduced by the approved voucher funding amount prior to selling the replacement vehicle.~~
4. The dealership should show the voucher amount on the replacement truck invoice. This amount should not reduce the sales price of the truck but should reduce the amount the participant will pay for the truck. The receipt of voucher funds does not lower the base price of the truck or does not reduce the tax basis of the truck.
5. Voucher Payment: The Dealership will be reimbursed by the District for the voucher amount once the Dealership submits a complete Reimbursement Package to District as outlined in the Guidelines and in this Agreement.

~~6. IRS Form 1099: The Dealership is aware that the District will issue an IRS Form 1099 for all voucher funds to the Dealership. Upon approval as a participating dealership, the Dealership shall submit a completed IRS Form W-9 to the District.~~

6. Dealership Obligations: The Dealership agrees to provide general information to Program participants about the Program. The District will provide training to Dealership staff. The Dealership agrees to assist Program participants to correctly complete and submit the Application Package to the District. It is important verify that all information is filled out correctly and that the participant understands the Program.
- a. Before the District may approve a voucher, an Application Package must be completed and submitted to the District. The Application Package must include all required documentation as outlined in the Program Guidelines.
 - b. After the District notifies the Dealership of application approval, the Dealership will order the replacement vehicle with an engine emissions certified at or below an FEL level of 1.20 g/bhp-hr of oxides of nitrogen and at or below 0.01 g/bhp-hr of particulate matter, as specified in the Guidelines, and have the replacement vehicle delivered to the Dealership.
 - c. Within five (5) days after the owner delivers the existing old-vehicle and original, signed title to the Dealership, the Dealership must ensure the existing old-vehicle and original, signed title is sent to a participating dismantler for destruction. The District will provide a list of participating dismantlers to the Dealership.

8.7. Dealership Qualifications: Dealership warrants that it meets the following minimum qualifications for participation in the Program, and will continue to meet these qualifications throughout its participation in the Program.

- a. Dealership has had a valid California business license for a minimum of the last two years.
- b. Dealership maintains a minimum of one (1) employee that has successfully completed the training by the District regarding the terms, conditions and requirements of the Program. If a participating dealership maintains more than one location for truck sales, then each location must have at least one employee trained on the VIP. Language must be included in the dealership agreement requiring each location have at least one employee is trained on the VIP.
- c. Dealership agrees to allow the District or California Air Resources Board (CARB) to inspect vehicles or audit program records covered under this Agreement during normal business hours.

9.8. Inspections: Inspections described below require inspection forms be completed and photographs taken to document vehicle and engine. Specific requirements are outlined in the Guidelines.

a. All inspections except for the dismantle inspection may be conducted by an authorized Dealership. If the District requests the Dealership to conduct an inspection, then the inspection must be conducted as follows:

i. ~~Pre-Inspection: Within five (5) days of application submittal, the Dealership inspects and documents old vehicle and engine description as specified in the Guidelines.~~

i. Submit completed inspection form and photos to district with the application

ii. ~~Postre-Inspection Destruction: Submit completed inspection form and photos to district with Dealer Reimbursement Package (Appendix J) Within three (3) days of old vehicle being delivered to the Dealership, the Dealership must take custody of the old vehicle and then conduct a Pre-Destruction Inspection of the old vehicle to ensure there are no substantial changes to the old vehicle that would result in a substantial decrease in value since the Application Package was approved. The Dealership must also ensure that the original old vehicle title is signed at the time of delivery.~~

ii.

iii. Pre-Dismantle Inspection: Submit completed inspection form and photos to district with Dealer Reimbursement Package (Appendix J)

~~Within three (3) days of District being notified the replacement vehicle is at the dealership, the Dealership must conduct post-inspection as outlined in Guidelines.~~

b. If the District conducts inspections, then inspections must be conducted in accordance with the VIP Guidelines ~~as those listed in 8(a).~~

10.9. Dealership Reimbursement: Dealership must submit a Reimbursement Package to the District. A description of documents in the Reimbursement Package is listed in the Guidelines. The Reimbursement Package must include:

- a. Dealer Reimbursement Invoice (appendix H) should be signed and returned to the district upon receipt
- b. Final dealership invoice signed by the applicant that shows the final purchase price less the voucher award
- c. Receipt of Voucher signed by the participant
- d. The original Voucher

- e. Copy of DMV registration paperwork showing vehicle registered to owner in California and is registered with a declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 lbs.
- f. Copy of finance documentation (if applicable)
- g. Copy of replacement vehicle warranty information
- h. Copy ~~of of title of existing old-~~ title signed and dated by participant
 - i. Copy of title for used replacement vehicles to show vehicle is not salvaged
 - ~~h.i.~~ Inspection forms and pictures of the existing old-vehicle after it is turned in to the dealership as specified in appendix I.
 - ~~j.k.~~ Inspection forms and pictures of the replacement vehicle as specified in appendix I.
 - ~~k.l.~~ Location of the dismantler yard ~~where that~~ the existing old-vehicle will be destroyed.
 - ~~l.m.~~ Date the existing old-vehicle is delivered to or picked up by a participating dismantler.

11.10. Noncompliance: Noncompliance with this Agreement or Guidelines, includes, but is not limited to cancelling the Agreement and recapturing voucher funds. The CARB and the District may disqualify Dealership from Program participation and seek other remedies as available under the law for noncompliance with this Agreement or Program requirements.

Appendix C(1)
VOUCHER INCENTIVE PROGRAM

Terms to be included in Master Agreement
Between the District and Retrofit Installer

NOTE to DISTRICT:

The terms listed do NOT constitute District's entire Agreement; standard District Agreement language (such as, confidentiality, termination, indemnification, insurance, etc.) must be included in conjunction with the items below. The terms have been prepared to facilitate the District's preparation of Agreement. The District must include the terms listed below and supersede any additional terms included by the District.

1. The District has not reviewed the Retrofit Installer's operations or reached any conclusion on the quality of their products, service, or operations. The District is permitting the Retrofit Installer to enter into this Agreement solely because Retrofit Installer has represented to the District that it is aware of the California Air Resources Board Voucher Incentive Program Guidelines (Guidelines) goals, and agrees to abide by the Program requirements and Guidelines.
2. The District and Retrofit Installer agree that if the California Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the Program, this Agreement shall be of no further force and effect. In this event the State shall have no liability to pay any funds whatsoever to the District and Retrofit Installer or to furnish any other considerations under this Agreement.
3. Payment: The District will not pay or otherwise directly reimburse or compensate in any way the Retrofit Installer for its services (other than actual and necessary professional installation services as authorized by the retrofit manufacturer) rendered in keeping with this Agreement, but the benefit received by Retrofit Installer under this Agreement is the opportunity to participate in the Program, which includes the corresponding opportunity to profit from the sale of ARB verified retrofit devices to Program Participants.
4. Reduction in Retrofit Purchase Price: The Retrofit Installer should show the voucher amount on the retrofit invoice. This amount should not reduce the sales price of the retrofit but should reduce the amount the participant will pay for the retrofit. The receipt of voucher funds does not lower the base price of the retrofit nor does not reduce the tax basis of the retrofit.
5. Voucher Payment: The Retrofit Installer will be reimbursed by the District for the voucher amount once the Retrofit Installer submits a complete Reimbursement Package to District as outlined in the Guidelines and in this Agreement.

6. Retrofit Installer Obligations: The Retrofit Installer agrees to provide general information to Program participants about the Program. The District will provide training to Retrofit Installer staff. The Retrofit Installer agrees to assist Program participants to correctly complete and submit the Application Package to the District. Retrofit Installer agrees that it is important to verify that all information is filled out correctly and that the participant understands the Program.
 - a. Before the District may approve a voucher, an Application Package must be completed and submitted to the District. The Application Package must include all required documentation as outlined in the Program Guidelines.
 - b. After the District notifies the Retrofit Installer of application approval, the Retrofit Installer will order the ARB verified retrofit device (if not already in stock), and install the device according to manufacturer specifications and all conditions described in the ARB verification executive order.
7. Retrofit Installer Qualifications: Retrofit Installer warrants that it meets the following minimum qualifications for participation in the Program, and will continue to meet these qualifications throughout its participation in the Program.
 - a. Retrofit Installer maintains a valid business license issued in California for a minimum of the last two years.
 - b. Retrofit Installer maintains a minimum of one (1) employee that has successfully completed the training by the District regarding the terms, conditions and requirements of the Program. If a participating retrofit installer maintains more than one location, then each location must have at least one employee trained on the VIP.
 - c. Retrofit Installer agrees to allow the District or California Air Resources Board (CARB) to inspect vehicles and retrofit devices, or audit program records covered under this Agreement during normal business hours.
8. Inspections: Inspections described below require inspection forms be completed and photographs taken to document vehicle and engine. Specifics requirements are outlined in the Guidelines.
 - c. All retrofit project inspections may be conducted by an authorized Retrofit Installer. If the District requests that the Retrofit Installer conduct an inspection, then the inspection must be conducted as follows:
 - i. Pre-Inspection: Submit completed inspection form and photos to district with the application

- ii. Post-Inspection: Submit completed inspection form and photos to district with Reimbursement Package (Appendix J)
 - d. If the District conducts inspections, then inspections must be conducted in accordance with the VIP Guidelines.
- 9. Retrofit Installer Reimbursement: Retrofit Installer must submit a Reimbursement Package to the District. A description of documents in the Reimbursement Package is listed in the Guidelines. The Reimbursement Package must include:
 - n. Reimbursement Invoice (appendix H) should be signed and returned to the district upon receipt
 - o. Final invoice signed by the applicant that shows the final purchase price less the voucher award
 - p. Receipt of Voucher signed by the participant
 - q. The original Voucher
 - r. Copy of DMV registration paperwork showing that the vehicle is registered to owner in California and is registered with a declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 lbs.
 - s. Copy of finance documentation (if applicable)
 - t. Copy of retrofit device warranty information
 - u. Copy of title of existing vehicle signed and dated by participant
 - v. Inspection forms and pictures of the vehicle after it is turned in to the Retrofit Installer prior to retrofit installation as specified in appendix I.
 - w. Inspection forms and pictures of the vehicle after retrofit installation in complete, as specified in appendix I.
- 10. Noncompliance: Noncompliance with this Agreement or Guidelines, includes, but is not limited to cancelling the Agreement and recapturing voucher funds. The CARB and the District may disqualify Retrofit Installer from Program participation and seek other remedies as available under the law for noncompliance with this Agreement or Program requirements.

Appendix D
VOUCHER INCENTIVE PROGRAM

Dismantler Agreement Terms to be Included in Master Agreement
Between the District and Dismantler Owner

NOTE to DISTRICT:

The terms listed do NOT constitute District's entire Agreement; standard District Agreement language (such as, confidentiality, termination, indemnification, insurance, etc.) must be included in conjunction with the items below. The terms have been prepared to facilitate the District's preparation of Agreement. The District must include the terms listed below that would supersede any additional terms included by the District.

1. The District has not reviewed the Owner's operations or reached any conclusion on the quality of the operations. The District is allowing the Owner to enter into this Agreement solely because the Owner has represented to the District that it is aware of the California Air Resources Board Voucher Incentive Program Guidelines (Guidelines) goals, and agrees to abide by the Program requirements and Guidelines.
2. The District and Dismantler agree that if the California Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the Program, this Agreement shall be of no further force and effect. In this event the State shall have no liability to pay any funds whatsoever to the District and Dismantler or to furnish any other considerations under this Agreement.
3. Payment: Owner will not be paid or otherwise reimbursed directly by the District or CARB. Rather, the benefit received by Owner under this Agreement is the opportunity to participate in the Program, which carries the corresponding opportunity to profit through the receipt – for cash or free – of materials that Owner will dismantle with the intent to make a profit. Funding is not available from the District through this Agreement for any dismantler or material costs, including hazardous waste abatement fees, labor costs, fines, permits, or other charges resulting from destruction or disposal.
4. Owner Obligation: The Owner must comply with the following requirements in accordance with the Guidelines, and submit certification to the District verifying that the requirements have been met. Within 60 days of receiving ~~old~~-vehicles under this Agreement, Owner will:
 - a. Destroy ~~old~~-vehicle and render it physically useless; and
 - b. Notify the District when the vehicle (chassis and engine) has~~ve~~ been properly destroyed and schedule a destruction-inspection with District; and

- c. The dismantler must provide verification that the ~~old~~ vehicle is registered with DMV as non-repairable. Verification of filing the form with DMV must be provided to the district at the dismantle inspection. The dismantler must also provide verification to the district from DMV that the ~~replaced~~ vehicle has been registered with DMV as non-repairable (non-revivable) with a transaction code L10 (Junk Non-Revivable) or C26 (Junk Non-Revivable Original).
File a Notice of Acquisition/Report of Vehicle To Be Dismantled (REG 42) and provide the District with proof of this filing within 60 days of receipt of the old vehicle.
5. Owner Qualifications: Owner warrants that it meets the following minimum qualifications for participating in the Program, and will continue to meet these qualifications throughout its participation in the Program. Owner must provide written proof that it meets the following qualifications within 48 hours if requested by District staff.
 - a. Owner must have a current, valid Dismantler's license issued by the California Department of Motor Vehicles.
 - b. Owner has a current, valid California Environmental Protection Agency Hazardous Material Generator and Storage Permit.
 - c. Owner must be in compliance with all local, State, and federal regulations, permits and requirements.
 - d. Owner must have a minimum of one (1) active employee who received training by the District on the requirements of the Program. If a dismantler has more than one location, then the dismantler must have at least one (1) active employee trained by the District at each location that will be accepting VIP trucks.
 - e. Dismantler~~Dealership~~ has had a valid California business license for a minimum of the last two years.
6. Dismantler Inspection: Once the District is notified, a dismantler-inspection will be scheduled and photos documenting the destruction of the engine will be taken in accordance with the Guidelines. Owner shall not move the ~~old~~-vehicle off of their property or part out a ~~n-old~~-vehicle until a dismantler inspection by the District has been performed and given approval by the District.
7. Use of Engine or Vehicle Pending Destruction: Owner may not use or permit the use of, the engines or vehicles, except use necessary to move it for destruction or storage.
8. Compliance: Because the prompt destruction of vehicles and engines is one of the critical components of the Program, and the parties agree that it will be

difficult to determine the monetary damages arising from Owner's breach of the requirement to destroy the dismantler vehicle within 60 days, Owner agrees that if it fails to destroy the engine and vehicle within the 60-day period, it will pay the District up to \$500 per day until the engine and vehicle is destroyed and provide verification that the vehicle has been registered as non-repairable with DMV. Owner may request that the District extend the 60-day period, and the District will not unreasonably withhold its approval of the extension request. Only written extensions are effective. Owner will not generally be eligible for an extension if the cause of the delay was within its control.

9. Noncompliance: Noncompliance with this Agreement or Guidelines, includes, but is not limited to cancelling the Agreement and recapturing voucher funds. The CARB and the District may disqualify Dismantler from Program participation and seek other remedies as available under the law for noncompliance with this Agreement or Program requirements.

Appendix E

VOUCHER INCENTIVE PROGRAM District Review Checklist: Initial Review

Owner: _____	<input type="checkbox"/> Approved <input type="checkbox"/> Rejected
Company: _____	Voucher # _____
Dealership/Installer: _____	Voucher Amount: \$ _____
Submittal Date: _____	Expiration date: _____

Verify that the following information/documents are included in the application. Use back side of checklist for additional comments if necessary.

Existing ~~V~~Old-vehicle Requirements

- ☐ Replacement Projects: Verification ~~that the old vehicle~~ engine model year is 2002-1993 or older:
 - ☐ 1994-1991 – 2002-1993 ☐ 1991 - 1993 or older ☐ 1990 or older
- ☐ Retrofit Projects: Verification that the engine model year is 2004-2006
- ☐ Vehicle is diesel fueled
- ☐ Existing vehicle meets the criteria for either a medium heavy-duty vehicle or a heavy heavy-duty vehicle as defined below:
 - ☐ To qualify for medium heavy-duty (MHD) funding levels, eligible vehicles must have been registered by DMV with a manufacturer Gross Vehicle Weight Rating (GVWR) of 19,501 or greater for the previous 24 months.
 - OR-**
 - ☐ To qualify for heavy heavy-duty (HHD) funding levels, eligible vehicles must have been registered by DMV with declared Combined Gross Vehicle Weight (CGW) range or declared Gross Vehicle Weight (GVW) range greater than 60,000 pounds for the previous 24 months. DMV weight codes corresponding to greater than 60,000 pounds are K, L, M, and N. If 24 months of CGW or GVW documentation is not available, then the vehicle must meet all of the following conditions to be eligible for HHD funding levels:
 - The engine must be greater than 250 horsepower , and
 - Vehicle must have a manufacturer GVWR greater than 33,000 pounds. Declared CGW or GVW may not be used to satisfy this criteria, and
 - Current and valid vehicle registration must identify declared CGW greater than 60,000 pounds, and
 - Manufacturer verification of GVWR and horsepower must be provided with the application.

☐ Verification of the weight rating must be identified on the vehicle registration for the previous 24 months.

☐ ~~Vehicle is registered with a declared Gross/Combined Gross Vehicle Weight Range greater than 60,000 lbs. as listed on the previous twenty four (24) months~~ 2 years of DMV registration OR

Vehicle must have a manufacturer GVWR greater than 33,000 pounds. (CGW may not be used to satisfy this criteria)

Current and valid vehicle registration must identify CGW greater than 60,000 pounds

The horsepower of the old engine must be greater than 250 horsepower

☐ CARL VIN – cross check to ensure applicant hasn't applied for or already received funding in the Voucher Incentive Program for the existing old-vehicle

☐ If the applicant chose the two-for-one option, both existing old-vehicles meet all requirements of the Program (replacement projects only)

Replacement Vehicle Requirements (if applicable)

☐ Replacement vehicle is MY 2007 or newer with an engine certified at or below:

☐ ≤ 1.20 g/bhp-hr NOx for MY 2007-2009 engine

☐ ≤ 0.20 g/bhp-hr NOx for MY 2010 engine

☐ Replacement vehicle is not a glider kit (the VIN does not starts with the letters "GL")

☐ DMV registration showing declared Gross/Combined Gross Vehicle Weight Range of the replacement vehicle is in the same weight class (MHD or HHD) as the existing old-vehicle

☐ Used replacement vehicle has less than 200,000 miles accumulated on it

☐ Used replacement vehicle title does not show salvage status

Retrofit Requirements (if applicable)

☐ Retrofit is highest level (PM + NOx) verified by ARB for the specific engine family

Documentation Requirements

☐ Application complete, signed and dated – original application (with wet signature)

☐ Copy of the existing old-vehicle title proving ownership for the previous a minimum of twenty four (24) monthstwo years' ~~ownership during previous two years~~ (titles with lien holders are not eligible)

☐ Documentation of a minimum of twenty four (24) monthstwo years of existing old-vehicle usage. Specific vehicle identified in documentation

☐ ~~–meets the selected annual mileage in Appendix O~~ Operated ≥30,000 miles per year for previous twenty four (24) -monthstwo years

OR

☐ ~~Consumed at least 4,700 gallons of diesel fuel per year~~ meets the selected annual fuel usage in Appendix O for previous twenty four (24) monthstwo years

☐ Copy of DMV Vehicle Registration (previous twenty four (24) monthstwo years):

☐ ~~_____~~ ☐ ~~Current Year~~ ☐ ~~1st Year Prior~~

☐ Copy of Vehicle Insurance Cards (previous twenty four (24) monthstwo y) ~~ears~~):

☐ ~~_____~~ ☐ ~~Current Year~~ ☐ ~~1st Year Prior~~

- ☐ Signed quote and specifications sheet for the replacement vehicle or retrofit (with date and price)
 - Delivery ~~date or installation date of replacement vehicle~~ is listed and included on the voucher
 - Voucher amount is reduced from quote
 - Owner is listed as buyer
- ☐ Replacement Projects: ARB Executive Order for the replacement engine, which demonstrates the engine meets Guideline requirements of $\leq 0.01\text{g/bhp-hr PM}$ (all MYs) and is at or below a STD or n-FEL level of:
 - ☐ $\leq 1.20\text{ g/bhp-hr NOx}$ for MY 2007-2009 engine OR
 - ☐ $\leq 0.20\text{ g/bhp-hr NOx}$ for MY 2010 engine

Existing VOld-vehicle Inspection Requirements

- ☐ Signed inspection form of the existing old-vehicle from either the dealer or the District
 - Existing Old-vehicle is operational – clear evidence has been provided
- ☐ Digital photos taken at the inspection of the existing old-vehicle —are legible
 —Digital photo information for existing old-vehicle/engine make, MY, VIN, serial number , and horsepower matches application information. The photos of the old engine should help verify application information. If no engine tag is available, a print out of the engine specs will suffice.

☐

District Requirements

- ☐ Issue voucher for
 - Funding year: _____
 - Existing engine model year: _____
 - Annual mileage: _____
 - Or fuel use: _____
 - Replacements - new or used: _____
 - MHD or HHD: _____
 - VOUCHER AMOUNT: _____

2009	<input type="checkbox"/> \$35,000 for the replacement of a vehicle with a 1990 and older model year engine
	<input type="checkbox"/> \$30,000 for the replacement of a vehicle with a 1991-1993 model year engine
2010	<input type="checkbox"/> \$25,000 for the replacement of a vehicle with a 1990 and older model year engine
	<input type="checkbox"/> \$20,000 for the replacement of a vehicle with a 1991-1993 model year engine

- ☐ Some fields on the application form do not need to be completed in order to approve the application. The following application form fields are mandatory and must be filled in completely before the application may be approved.

<p><u>Applicant Information:</u></p> <ul style="list-style-type: none"> • <u>Owner Name</u> • <u>Mailing Address (including City, State, Zip)</u> • <u>Physical Address (if different from mailing)</u> • <u>Owner Phone</u> 	<p><u>Third Party Information:</u></p> <ul style="list-style-type: none"> • <u>Third-Party Name</u> • <u>Mailing address (including City, State, Zip)</u> • <u>Physical Address (if different from mailing)</u> • <u>Phone</u> • <u>Third Party Signature & Date</u> <p><u>Only required if a paid party other than the dealership completes the application</u></p>
